

Amazing Chart for Energtek Inc.

(\$EGTK)

BY EDITOR • 0 COMMENTS • FILED UNDER: ASIDES, ENERGY STOCKS, STOCKGURU BLOG

I thought I would share these amazing charts for Energtek Inc. (OTCBB: EGTK). Rarely do you see a company chart as strong as this for many months. I am going to show the progressions from one month, three months, six months and finally a year. [Today they had news.](#) I have watched the company a long time and am pleased to see this progress.

Here are those charts:

Above is the one month chart.

Here is the news that has happened during that chart:

- Jul 16, 2014 Energtek Reports Further Fundraising Success
- Jul 10, 2014 Energtek Appoints Alfred G. McNeill to Board
- Jun 19, 2014 Energtek Develops Second Generation Hyboost Devices

The three month chart. While it plateaued during the April and May period, it came on strong after that.

Here is the news that took place during this period, not including the releases shown above:

- Jun 10, 2014 Energtek Further Strengthens Management Team
- May 28, 2014 Energtek Reports Revenues of \$3.2M in Q1 '14
- May 15, 2014 Energtek (USA) Purchases Land in Swanton, Vermont
- May 7, 2014 Energtek NCI (USA) Starts Activities
- May 5, 2014 Energtek Launches Improved Redesigned Website
- May 1, 2014 High Profile Management Team Joins Energtek USA
- Apr 10, 2014 Energtek Reports Additional Financing of \$500K
- Apr 7, 2014 Energtek Reports Revenues of \$11.3M in 2013

You can see the slight plateau mentioned above was actually consolidation in price before a move up, and was also a continuation of a trend that started six months or more ago.

Two releases came during these additional three months of early January through early April:

- Jan 23, 2014 Energtek Strengthens its Management with CEO Nomination
- Jan 8, 2014 Energtek Inc. Issues Letter to Shareholder

Final, the one year chart above. That six months was a bit of and down. Here are the releases for that six months:

- Dec 17, 2013 Energtek's US Subsidiary Announces Advanced Negotiations Towards Project in Texas
- Dec 9, 2013 AMP Presents its Unique Mobile Natural Gas Transport Solutions to California Independent Producers
- Nov 20, 2013 Energtek Announces Creation of American Subsidiary for Activities in USA
- Nov 4, 2013 Energtek Announces Doubling of Quantities Supplied to Customers in B-H
- Oct 28, 2013 Energtek Reports Fourth Consecutive Significant Increase in Quarterly Revenues
- Oct 8, 2013 Energtek Launches "EN-Hyboost" - its Newest Technological Breakthrough
- Sep 11, 2013 Energtek Reports Second Quarter Revenues of \$2.5M
- Jul 23, 2013 Energtek Announces Increased Revenues in Second Quarter
